

Fall Protection

When working from heights, such as ladders, scaffolds, and roofs, employers must plan projects to ensure that the job is done safely.

Visit www.osha.gov for complete details and regulation requirements.

Workman® Arc Flash Harnesses

Designed to protect a worker during a fall after an arc-flash exposure at 40 cal/cm². Durable nylon material will not melt or drip in the event of an arc flash. Features steel back D-ring; Y-shaped D-locator pad that keeps torso straps off of the user's neck to prevent chafing; and Velcro® lanyard keepers for lanyard stowage when not in use. Arc Flash symbol for easy identification. Meets ANSI Z359.1, ASTM F887, OSHA 1910.269 and CSA Z259.10 requirements.

Gravity® Harness

Curvilinear Comfort System provides total comfort during use. Integral belt and comfortable saddle assist with support, position, restraint and climb movements. Teflon® fabric protected webbing resists water, oil, grease and dirt. Uses a special urethane web coating to resist stains and wear and tear that are common when working in dirty environments. Rated to a 400-lb./180 kg capacity. Suitable for controlled descent, positioning, ladder climbing, rescue, and fall arrest. Includes load-indicator to alert when the harness has been involved in a fall event. Meets all applicable OSHA, ANSI and CSA standards and requirements, including ANSI Z359.1.

WARNING

Compliant fall protection and emergency rescue systems help prevent serious injury during fall arrest. Users must read and understand the *User Instructions* provided with the product and be properly trained by their employer prior to use per OSHA 1910.66 and 1926.503 or applicable local standards. **Misuse or failure to follow warnings and instructions may result in serious personal injury or death.** For proper use, see supervisor, *User Instructions*, or call Technical Service at 1-800-560-1094.

3M SITA Fall Protection **ExoFit NEX™ Vest Style Harnesses**

Full-body harness provides comfort and function with soft, yet extremely durable, anti-absorbent webbing, strategically placed padding and protective elements that prolong service life of harness. Chest platform places labels and i-Safe™ RFID tag behind a Velcro® cover to protect labels and provide easy access. Covered pocket with elastic sides is conveniently placed on front of chest strap to hold workplace or personal items such as a cellular phone. Includes reflective material that increases worker safety in low-visibility environments, stand-up, aluminum dorsal D-ring, integrated suspension trauma straps for post fall-arrest comfort, impact indicator stitches and breakaway lanyard keepers. Capacity: 420 lbs. Meets all applicable OSHA regulations and ANSI Z359.11 standard.

Features:

- Duo-Lok™ quick-connect buckles: lightweight, one-hand use with memory-fit
- Revolver™ vertical torso adjusters: simple, fast adjustment that locks into position
- Hybrid comfort padding: combines premium comfort with durability, protective shoulder caps
- Tech-Lite™ aluminum D-rings: lightweight alloy for added comfort
- Repel™ technology webbing: provides up to 5 times more abrasion resistance and water repellency

Delta™ Construction Harnesses with Hip Pads

Patented No-Tangle triangular design allows harness to fall into place for quick and easy donning and holds its basic shape so shoulder straps don't rub against neck. Water-repellent Repel™ webbing has built-in rip-stitch impact indicators for inspection of harness for prior damaging impact loads. Revolver™ vertical torso adjuster makes adjustments simple and fast, eliminating loose ends and locking into place to prevent slippage. Tech-Lite™ aluminum alloy buckles reduce both carried weight and energy required for all-day job performance. Lanyard keepers hold unused snap hooks and reduce trip hazards. i-Safe™ enabled with RFID technology; label protector has Velcro® cover for holding harness labels and i-Safe identification tag. Includes tongue-buckle leg straps, a spring-loaded stand-up dorsal D-ring for fast, easy and safe connections, and side D-rings for positioning. Hip pad ergonomically supports back and hips while bearing heavy loads. Capacity: 420 lbs. Meets or exceeds all applicable OSHA regulations and ANSI Z359.11 standard.

MSA **FP5K™ Tie-Back Energy-Absorbing Lanyards**
The Safety Company

Lanyard utilizes a carabiner with a 1" gate opening and 5,000-lb. gate strength in any direction that allows it to be tied back directly to the lanyard. Carabiner body shape helps avoid confusion with standard connectors not designed for tie-back applications. Utilizes Monster-Edge™ webbing with 12,000-lb. minimum breaking strength designed for increased abrasion resistance. Internal wear indicator consists of (2) yellow threads that, when visible, alert a user that the lanyard should be removed from service. Utilizes the Sure-Stop™ energy absorber to keep fall arrest forces below 900 lbs. Meets all applicable OSHA, ANSI and CSA standards and requirements, including ANSI Z359.13 and CSA Z259.11-05 E4.

Honeywell MILLER BackBiter® Tie-Back Lanyards

All-in-one lanyard designed specifically for tie-back use reduces inventory and increases worker compliance. Features SofStop® shock absorber designed with a specially-woven inner core that smoothly expands to reduce fall arrest forces. Includes locking Miller 5K® snap hook (5,000-lb. gate load capacity from any angle), locking snap hook with 3/4" gate opening harness connection, heavy-duty webbing and cross-arm anchorage connector. Twin-leg models can be used for 100% tie-off requirements. Green. All connectors rated at 3,600-lb. gate strength. Meets all applicable OSHA, ANSI and CSA standards and requirements, including ANSI Z359.1.

1340180	458001801	Twin-leg lanyard w/ snap hook & steel rebar hooks	6'	Ea

EZ-STOP™ II Shock-Absorbing Lanyards

Lighter, stronger and more durable than previous EZ-STOP models; 66% smaller and 40% lighter with 3/4" webbing that reduces weight. Includes HI-10™ Vectran® energy management material, which is a multifilament, high-tenacity performance yarn spun from liquid crystal polymer that is 5x stronger than steel and provides minimal moisture absorption and resists abrasion, chemicals, cuts and impact. Features redesigned steel snap hooks for lighter weight, hi-viz reflective material, Repel™ webbing, protected labels and an i-Safe™ identification tag. Lightest, strongest, smallest shock absorber in the world with rugged, durable, soft shock absorber cover. Patent-pending, locking gate/nose design for maximum strength and security. Dual action, 3,600-lb. gate for ANSI/CSA compliance and increased strength. 2 1/2" Gate opening fits around most structures. Modular models reduce overall cost of ownership, as components can be replaced individually in the field.

WARNING

Compliant fall protection and emergency rescue systems help prevent serious injury during fall arrest. Users must read and understand the *User Instructions* provided with the product and be properly trained by their employer prior to use per OSHA 1910.66 and 1926.503 or applicable local standards. **Misuse or failure to follow warnings and instructions may result in serious personal injury or death.** For proper use, see supervisor, *User Instructions*, or call Technical Service at 1-800-560-1094.

506204

10119507

Dyna-Lock® Self-Retracting Lanyard

Three continuously moving independent braking mechanisms prevent freezing in icy or corrosive conditions. Built-in shock absorber limits fall arrest forces to under 900 lbs. and 4 1/2' per second locking speed. Forged steel, zinc-plated, self-locking swivel snap hook on each unit with load indicator that activates and alerts user of impact loading. Lanyard is 3/16" galvanized cable. Capacity/working load is 400 lbs. maximum and 75 lbs. minimum. Meets all applicable OSHA regulations and ANSI standards, including ANSI Z359.14.

Honeywell Miller Turbo T-BAK™ Personal Fall Limiters

Tie-back anywhere on lifeline. Cost-effective alternative to tie-back, shock-absorbing lanyards. All-in-one, self-retracting lifeline/anchorage connector designed for anchoring below user's harness back D-ring for greater safety, with integrated shock absorber for tie-back applications with load indicator device. Heavy-duty web lifeline extends/retracts smoothly without interruption. Provides more tie-off anchorage locations with greater variety of beam-size options. Miller 5K® locking snap hook has 5,000-lb. gate capacity from any angle. High-tech strength and abrasion-resistant webbing with white side stripe stitching indicating tie-back use. User-rated for 400-lbs. capacity. Meets all applicable OSHA, ANSI, CSA and CE standards and requirements. ANSI Z359-compliant model has connector gates rated at 3,600 lbs.

Nano-Lok™ Arc Flash Self-Retracting Lifeline

Designed specifically for utility applications to provide protection to workers in electrical transmission and distribution environments. Durable, reinforced, 3/4" webbing with Nomex®/Kevlar® fiber withstands sparks, weld splatter and other high heat exposure. Retractable design provides freedom of movement, keeps lifeline out of the worker's way and reduces dragging, snagging and trip falls. Arc flash industry logo easily identifies product for arc flash use. i-Safe™ enabled with RFID technology. Capacity: 420 lbs. Arc flash rated up to 40 cal/cm². Meets or exceeds industry standards: ASTM F887-11; OSHA 1926.502, 1910.66; ANSI Z359.14, A10.32; CSA Z259.2.2.

Features:

- Built-in anchorage connector attaches directly to harness webbing, leaving dorsal D-ring open for other equipment or rescue; design fits snug to worker's back
- Swiveling anchorage loop limits lifeline twisting for smoother operation
- Tough, impact-resistant thermoplastic housing provides maximum durability
- Quick-activating speed sensing brake system stops a fall within inches, providing more protection at low heights; designed for smooth consistent operation
- High-capacity energy absorber and impact indicator protected by Kevlar fiber cover

EZ-STOP™ Retrax™ Lanyard

Utilizes retraction technology similar to airport security lines, retracting and expanding smoothly and consistently from 2 1/2' to 6'. Retraction keeps lanyard taut and close to body at all times, reducing trip fall hazards and snagging on equipment. Compact and lightweight weighing only 2 lbs. Gate compliance is 3,600 lb. Limits arresting forces to 900 lbs. or less. RFID technology enabled, 1 3/8" wide web. Meets or exceeds all applicable OSHA regulations and ANSI standards, including ANSI Z359.1.

ITEM #	ORDER #	DESCRIPTION	UOM
1241460	458014611	Single leg lanyard w/ snap hooks both ends	Ea

Rebel™ Self-Retracting Lifelines

Lightweight, compact and durable. Safer than traditional lanyards due to retractable technology to ensure falls are stopped within a few inches. Durable thermoplastic housing on both web and cable models incorporates a swiveling anchorage ring, allowing for ultimate functionality in heavy-use environments. Unique speed-sensing brake keeps forces to a minimum and reduces clearance requirements. Web models feature unique, thin webbing that enables a compact size with a load capacity of 310 lbs. Galvanized steel cable models feature a maximum arresting force of 900 lbs. and support capacity of 420 lbs. and 5 mm cable dia. Hooks have 3,600-lb. gate compliance. Two year warranty, no annual re-certification required. Meets all applicable OSHA, ANSI and CSA standards and requirements, including ANSI Z359.1.

Nano-Lok™ Edge Self-Retracting Lifeline

Specifically designed for foot level tie-off, when anchoring at the user's feet is the only option. Ergonomically designed for comfort. Limits average arresting forces to 900 lbs. or less. Requires fall clearances as low as 16'. Integrated, backpack-style energy absorber works with connector to limit forces to protect against sharp edges. Backpack design stays tight to harness and evenly disperses unit's weight. Easy-to-install, direct-to-harness connector provides 360° of rotation, seamless integration of the energy absorber, and leaves the D-ring open for rescue or other equipment. Global sharp edge icon for quick identification of sharp edge product. Tough, flexible, lifeline: 3/16" galvanized cable provides maximum range of motion, durability and cut resistance. Impact-resistant, lightweight thermoplastic housing provides maximum durability. Various hook options and configurations available. Bright orange color for easy identification. Meets applicable standards, including ANSI Z359.14.

Fixed Beam Anchors

Specifically designed for fall arrest anchorage, but can also be used as end point for some horizontal lifeline systems. Installs quickly to beam structure, tightens using built-in adjustment handle. Attaches to beam structure in any orientation or direction for added versatility. Available to fit flanges 1 1/2" or 2 1/2" thick and 12" to 36" wide. Rated 5,000 lbs. minimum strength in any direction. Meets or exceeds all applicable OSHA regulations and ANSI standards, including ANSI Z359.1.

ITEM #	ORDER #	DESCRIPTION	UOM
2108406	458036011	Fixed beam anchor, fits 2 1/2" to 12" wide flange up to 1 1/2" thick	Ea

◆ 2108408	458084081	Fixed beam anchor, fits 2 1/2" to 24" wide flange up to 1 1/2" thick	Ea
◆ 2108410	458084101	Fixed beam anchor, fits 12" to 36" wide flange up to 2 1/2" thick	Ea

Glyder™ and Glyder2™ Sliding Beam Anchorage System

Provides complete horizontal mobility and can be tied-off overhead or at feet (use with Force2™ shock-absorbing lanyard when used at feet). Anchor effortlessly slides across beam on replaceable wear pads, eliminating metal-to-metal contact. Stainless steel construction for corrosion resistance and strength (5,000-lb. min. tensile strength). Channel lock prevents beam grip ends from rotating for hassle-free connection. Positive spring-loaded engagement provides precision adjustment. Dual-beam grip adjustment prevents twisting and turning as it moves along beam. Pins install from top for easier installation. Glyder model pin retention system prevents loss or damage to locking pins. Glyder2 model requires no pins and weighs 3.7 lbs. Meets or exceeds all applicable OSHA regulations and ANSI standards, including ANSI Z359.1.

ITEM #	ORDER #	DESCRIPTION	UOM
2104700	458020161	Glyder2 sliding beam anchorage system, 3 1/2" to 14" wide flange up to 1 1/4" thick	Ea

⚠ WARNING

Compliant fall protection and emergency rescue systems help prevent serious injury during fall arrest. Users must read and understand the *User Instructions* provided with the product and be properly trained by their employer prior to use per OSHA 1910.66 and 1926.503 or applicable local standards. **Misuse or failure to follow warnings and instructions may result in serious personal injury or death.** For proper use, see supervisor, *User Instructions*, or call Technical Service at 1-800-560-1094.

Honeywell
MILLER

Vi-Go™ Automatic Pass-Through Cable Sleeve

Cable sleeve, sold separately from the Vi-Go Ladder Climbing Safety Systems, is designed to follow user along a 3/8" or 5/16" cable lifeline while ascending or descending, instantly locking in the event of a fall. Integrated shock-absorbing element provides dual shock-absorbing system to further reduce fall forces and protects system and ladder from damage. Once a fall occurs, the deployed shock absorber indicates unit must be removed from service. Can be used with automatic or manual system. Includes integral swivel and carabiner.

EZ-Line™ Retractable Horizontal Lifeline System

Innovative retractable design allows for quick and efficient set-up and disassembly of any length system. Retractable lifeline is simply pulled out for installation and retracted with built-in winch for dismantle. Entire 60' system is retracted into easy-to-carry case which eliminates large, bulky coils of cable. Weighs 25 lbs. Built-in pre-tension and impact indicators take guess work out of set-up and inspection. Provides hands-free horizontal mobility and continuous protection for (2) users per span, up to (6) users per system. Stanchions not included.

Workman® Rescuer

Provides fast, easy and intuitive fall protection with integral bi-directional retrieval capability. Besides arresting just the fall, its retrieval capability allows the fallen worker to ascend or descend to a safe location. Offers fast installation and setup, and is ideal for applications where time and ease of use are a priority. Can also be used as a stand-alone retractable device, as the carrying handle may be used as an anchorage attachment. Optional mounting bracket allows Workman Rescuer to be mounted to XTIRPA™.

Tool Holsters

- Scaffold Wrench Holster with Retractor: Quickly holster scaffold wrenches while working at height. Features Beacon™ Hi-Vis Reflectors.
- Drill Battery Holster/Sleeve: Unique sleeve design conforms to the size of virtually any drill battery. Sleeve is cinched to the drill, allowing the drill to be tethered off while being used at height. 10-lb. load rating.

ITEM #	ORDER #	DESCRIPTION	UOM
1500096	458055961	Scaffold wrench holster w/ retractor	Ea
1500090	458055901	Drill battery holster/sleeve	Ea

Single Tool Holster

Equipped with D-rings that are load rated for 5 lbs. Beacon™ Hi-Vis Reflectors are easy to identify and locate, even when left in dark spaces. Highly reflective material is stitched into the front and back of the holster allowing it to be detected in low light conditions with a flashlight. Quick-Mag™ magnetic tool staging system speeds up workflow and reduces how often tools need to be holstered. Allows tools to simply stick to the holster ensuring that tools are always at the ready. Drain vent helps keep the holster dry by allowing water to pass through, protecting tools from rusting and protecting holster from dry rot. Retractor is load rated for 1.5 lbs.

Suspension Trauma Safety Straps

Allows suspended worker to stand up in harness relieving pressure on arteries and veins around top of legs. Continuous loop design allows both sides of harness to relieve pressure. Strap provides increased comfort and improved circulation to one or both feet at a time while suspended. Safety accessories can be attached to most harness brands/styles right in the field. Installation is fast and efficient - just choke off to strap. Stows easily and stays out of worker's way. To deploy, simply unzip, hook straps together and step into. Sold as set of 2. Harness not included.
