P.E. TYING RIBBON

POLYETHYLENE FILM TAPE TWINE

Our premium grade PE Ribbon (or tying tape/ribbon) is a flat folded film used in automatic tying machines for general bundling applications.

This tying ribbon is a particularly cost effective replacement for polyester and cotton wrapping twines. It has great strength and holds notably well.

Used extensively in mailing/fulfillment houses for bundling. A favorite in the nursery and laundry industries. Other size and color options exist. Please inquire.
