

POLYPROPYLENE ROPE

3-STRAND POLYPRO. HUGE COLOR SELECTION. CUSTOM COLORS & LENGTHS AVAILABLE.

Polypropylene is a great value --- economical, but strong and lightweight. It floats, and can be stored wet.

Highest quality fibers --- very little stretch, with a sure gripping surface. Excellent wet/dry strength. Easy-to-slice and easy-to-splice. Unaffected by rot, mildew, oil, gasoline, water, and most chemicals.

Smooth surface feel for easy handling. Added abrasion and UV resistance. Continued use will loosen relative rigidity; and, regular usage will roughen the surface over time - enhancing knot grip-ability.

Lives an all-purpose life: versatile, can pull conduit, works as barrier/crowd control, perfect in/around water/snow, good electric utility rope, effective tie-down, and a great general-purpose choice.
